WORK EXPERIENCE

Front-end/ React developer
Global4net ⬈

09/2020 - Present

- My main task in Global4net is development of the website for the one of the biggest Polish online stores **Neonet.pl**/**Neo24.pl**
- I work on improving website functionalities on a daily basis
- I had rebuilt several core parts of the website, which improved SEO conversion rate and overall user experience
- I had prepared a new recruitment process for the frontend positions, which saved the company time and resources
- I have conducted more then 40 recruitment processes

Front-end developer
Lune.xyz

07/2018 - 09/2020   *Wrocław*

- I worked on multiple different projects with several technologies, such as React.js and Three.js
- A lot of projects were based on building AR and VR experiences for users in a web browser
- I had a lot of experience with Ember.js while developing admin panel for the main product of the company
- I was developing desktop applications with Electron.js and mobile PWA apps

Part-time PHP programmer
link2light

07/2017 - 12/2017   *Lublin*

- My main task was the automation of the online store
- I worked with the tools, such as phpMyAdmin and X-Cart
- I got my first experience with databases and JavaScript
